

# Business Management

The Navitas at UMass Boston program offers an alternative pathway to the University of Massachusetts Boston for international students who may not qualify for direct entry and who seek a supportive study environment.

The Navitas UPP is equivalent to the first year of a UMass Boston bachelor's degree program. When you successfully complete Year 1 with Navitas you can move directly into the second year of your undergraduate degree.

All students entering the program are fully matriculated UMass Boston students from day one with Navitas.

### Information Technology

- Prepares students for careers in Business, Finance, Information Management, Marketing, Accounting, Management Science and Information Systems.
- Princeton Review named College of Management one of the top 300 Business schools in the world.
- Students are pre-approved for one semester of Optional Practical Training (OPT), for 12 credits towards the degree.
- First-rate faculty and diverse, high-achieving student body, the college offers innovative, interdisciplinary curricula tuned to the changing needs of the global economy.

- Graduates of the College of Management are placed locally, regionally, nationally and internationally.
- Accredited by the Association to Advance Collegiate Schools of Business (AACSB International). The Aspen Institute Center for Business Education includes the College of Management in 'Beyond Grey Pinstripes', its biennial ranking of the 'Global 100' business schools.
- Students can participate in MAP (Management Achievement Program), a comprehensive program designed to allow students to synthesize their professional goals and experiences.

### Bachelor of Science Information Technology (BSIT)

Two options:

- Information Architecture Track
- System Administration Track

### Graduate pathway

# Bachelor of Science in Information Technology

- The College of Management & Computer Science and Information Systems work together to deliver a degree program that addresses the world's information technology workforce needs.
- Hands on, project based program where students learn how to use IT to solve real-world problems within the context of a field in which they wish to work.
- Prepares students for a career in system and network administration.
- Prepares students to design the overall architecture of business information systems.
- Addresses topics such as usability, interface design, information design, component based design and enterprise systems.
- Addresses issues related to the selection, installation, configuration and maintenance of Linux and Windows operating systems and Internet working environments.
- Students are exposed to common packaged solutions and coached on best practices in adapting these solutions to a wide range of business problems.
- Graduates will be familiar with, and be able to apply, the following core information technologies to solve business problems:
  - Programming
  - Networking
  - Databases
  - Web technologies

## What careers can you pursue with a degree in Information Technology?

- Java developer
- Net developer
- Database developer
- IT security manager
- Applications architect
- Enterprise architect
- Chief information officer

## Did you know?

Four of the top ten most demanded majors are IT related!

Some information technology jobs can boast the highest starting salaries of any career choice available. This has made information technology one of the most sought after careers ever.
